**Preliminary Amendment**

Dear Sir:

Please amend the claims and abstract as detailed below.

**In the Claims**

1. (currently amended) A modular air supply system for a vehicle, characterized in that it comprises a base unit (4) forming an interface to different modules of the air supply system, an electronic drier module (3) connected to the base unit (4) and that the electronic drier module (3) is connected to a CAN-bus (14) of the vehicle.
2. (currently amended) The modular air supply system of claim 1, characterized in that it comprises an air treatment module (2) connected to the base unit (4).
3. (currently amended) The modular air system of ~~any of the previous claims~~ claim 1, characterized in that it comprises an air distribution module (13) connected to the base unit (4).
4. (currently amended) The modular air system of ~~any of the previous claims~~ claim 1, characterized in that the base unit (4) comprises an air inlet (4), an air outlet (5), an exhaust (6) and recesses to receive units having different functions.
